Separate paging is given to this Part in order that it may be filed as a separate compilation

PART III—SECTION 2

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE Patents and Designs

Calcutta, the 31st December 1955

CORRIGENDUM

In the Gazette of India, Part III, Section 2, dated the 3rd September 1955, in page 190, column 2, under the heading "Registration of Designs"—
for "Class 1 No. 82688"
read "Class 1 No. 82888".

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

15th December 1955

- 56070. V. V. Rama Row Naidu. Improvements in or relating to Railway line joints.
- 56071. Dr. J. Nemec. Exhaust or suction silencer for internal combustion engines.
- 56072. Maybach-Motorenbau G.m.b.H. Connecting-rod bearing.
- 56073. P. V. Holay. Hindi and Marathi key-board for typewriters.
- 56074. Kosmek Limited. Improvements in or relating to stoppering of bottles or like containers.
- 56075. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to lighting devices comprising a part of inorganic glass.
- 56076. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to a method of producing tachysterol and dihydro-tachysterol.
- 56077. Hobbs Transmission Limited. Variable-ratio power transmission. (30th December 1954).
- 56078. Oriental Cardboard Industries Ltd. A spraying device for powdered material.
- 56079. Wafti Khan, Md. B. U. Khan, Md. Ansar Khan and Md. Anwar Khan. Method of manufacturing ornamental bangles.

16th December 1955

- 56080. R. L. Nagle. Nagle self oscillating cradle by electrical devise, "Electro-magnetic self oscillating cradle".
- 56081. Nibbit Products Association Ltd. Improvements in or relating to a method of producing a foodstuff.
- 56082. Monsanto Chemicals Limited. Waterproofing process.
- 56083. Monsanto Chemicals Limited. Process for waterproofing.
- 56084. Satya Brata Ghose. Improvement relating to power supply circuits of AC and dry battery combined radio receiver.
- 56085. G. M. Kelker and S. Thodadrinathan. Modeline (Model making material).
- 56086. W. R. Patil. A new device for lifting water by means of air-pump.

17th December 1955

- 56087. Hobbs Transmission Limited. Improvements in or relating to pumps. (14th January 1955).
- 56088. Imperial Chemical Industries Limited. Improvements in the production of pigmented prints, impregnations and coatings on fibrous materials. (24th December 1954).
- 56089. Asahi Garasu Kabushiki Kaisha. A process for crystallizing out ammonium chloride.
- 56090. J. R. Geigy A.-G. Process for the production of tinctorially strong, non-flocculating phthalocyanine pigments.
- 56091. Ruhrchemie Aktiengesellschaft and Lurgi Gesellschaft Für Warmetechnik m.b.H. Improved process for impregnating catalysts with paraffin.

19th December 1955

- 56092. M. L. H. Rawlley. Float stop motion.
- 56093. United States Steel Corporation. Sheet piling mechanisms.
- 56094. Stamicarbon N. V. Apparatus for pressing out liquid from liquid-containing material.
- 56095. E. K. Cole Limited. Improvements in or relating to intermediate frequency transformers. (1st January 1955).
- 56096. Olin Mathieson Chemical Corporation. Amphotericins, their salts and method of manufacture.
- 56097. B. P. Allersma. A vehicle provided with a powder distributing device.
- 56098. General Steel Castings Corporation. A railway truck frame transom structure.
- 56099. Kurt Korber & Co. K.G. Method of producing boxes with case-like cover made from blank.
- 56100. N. V. Philips' Gloeilampenfabrieken. Acaricidal compositions. [Divisional date, September 21, 1954].
- 56101. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of hexaenes.
- 56102. The Birmingham Small Arms Company Limited. Improvements in or relating to electric generators.
- 56103. V. R. Sonti. Improvements in or relating to the manufacture of mats of bamboo slats or like building materials.
- 56104. H. E. Husgen and R. R. J. Daniels. Improvements relating to tube closure devices.
- 56105. Kosmek Limited. Improvements in or relating to closures for bottles or like containers.
- 56106. Kosmek Limited. Improvements in or relating to devices for extracting liquid contents of bottles drop by drop.
- 56107. P. P. Mathur, V. P. Mathur and J. P. Mathur. Improvements in or relating to burglar and fire alarms.

20th December 1955

56108. B. P. Pande. An improved plough.
56109. Dr. K. Ziegler. Process for the production of high molecular polyethylenes. (7th November 1955).
56110. H. L. Imelmann. Improvements in or relating to apparatus for converting heat energy directly to electrical energy.
56111. Dr. E. Gretener. Arc lamp with air current concentration.
56112. Stewarts and Lloyds Limited. Manufacture of steel or other metal tubes. (3rd January 1955).
56113. The British Tabulating Machine Company Limited. Improvements in or relating to record card controlled printing mechanisms. (12th January 1955).
56114. The Goodyear Tire & Rubber Company. Improvements in valve for tubeless truck tires.
56115. Imperial Chemical Industries Limited. New diaryl-methane derivatives, their manufacture and application. (24th December 1954).
56116. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of 15, 15'-cis- β -carotene.
56117. F. Hoffmann-La Roche & Co. Aktiengesellschaft. Process for the manufacture of all-trans-carotenoid compounds.
56118. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to wound capacitors comprising a supply member which is secured to an electrode projecting from one end face.
- 21st December 1955
56119. M. R. Mussett and E. J. Camp. Improvements relating to the construction of buildings.
56120. M. R. Mussett and E. J. Camp. Improvements relating to the construction of buildings.
56121. M. R. Mussett and E. J. Camp. Improvements relating to the construction of buildings.
56122. Fisons Limited. Fertilizers. (8th January 1955).
56123. Vacuumtechnik-A.G. Installations for continuously treating materials in vacuo. (24th June 1955).
56124. Demag Elektrometallurgie G.m.b.H. Electric melting or smelting furnace.
56125. Standard Telephones and Cables Limited. Improvements in or relating to electric oscillation generators. (9th March 1955).
56126. Standard Telephones and Cables Limited. Armature assembly unit for relays. (2nd July 1954). [Divisional date, July 1, 1955].
56127. Standard Telephones and Cables Limited. Improvements in or relating to contact springs for plug-in-relays. (2nd July 1954). [Divisional date, July 1, 1955].
56128. Standard Telephones and Cables Limited. Electrical contact carrying member. (2nd July 1954). [Divisional date, July 1, 1955].
56129. Aktiengesellschaft Fur Unternehmungen Der Eisen-Und Stahlindustrie. Method of producing from ferromanganese ore concentrate suitable for conversion into ferromanganese.
56130. Dr. O. Wurmbock and E. Wurmbock. A device for supplying colouring and other treatment agents of a pasty or liquid nature to eyelashes.
56131. Dr. Ing. W. Eisbein, K. Kral and A. Lippinghof. Contact copying machine.

Alteration of Date

52154. The claim to priority date 10th June 1953 has been abandoned and the application dated as of 17th June 1954, the date of filing in India.

Applications Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications referred to below may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi and also on

cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in the course. The price of each specification is Rs. 2 (postage extra, if sent out of India). Requisition for the supply of printed specifications should be accompanied by the numbers of specifications as shown in the following list.

If required typed copies of the specification together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charge which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under Section 78-A of the Act.

51553. L. Rado. Collapsible container. (24th March 1953). Accepted on 19th December 1955.

The nozzle separately made, protrudes out of a perforation in a side wall of the container near to one narrowed end thereof.

51610. Director, Technical Development, M.G.O. Branch, Army Headquarters, New Delhi. Utilisation of urea-formaldehyde resin for cotton textiles against attack by solar radiation and/or micro-organisms. Accepted on 15th December 1955.

Impregnating textiles in a solution of urea-formaldehyde resin at pH 4.

52132. The General Electric Company Limited. Improvements in or relating to alloys. (19th June 1953). Accepted on 15th December 1955.

Comprising major constituents like tungsten and/or molybdenum and a minor constituent consisting of two or more of the metals iron, nickel, cobalt, chromium, the proportion of major constituent being less than 75 per cent, and proportion of chromium, if present, being not greater than 15 per cent by weight of the alloy.

52145. The General Electric Company Limited. Improvements in or relating to magnetic recording media. (26th June 1953). Accepted on 16th December 1955.

Comprising a thin flexible sheet carrying a layer of metallic iron crystallites of less than 0.1 micron dimensions.

52154. Standard Telephones and Cables Limited. Improvements in or relating to electric systems for storage and retransmission of intelligence. Accepted on 15th December 1955.

Capable of storing incoming messages and retransmitting stored messages in accordance with destination information carried each message and in which each received message is directed into a store in which it remains until it is transmitted over an outgoing channel.

52165. Norsk Hydro-Elektrisk Kvælstofaktieselskab. Process for the production of calcium nitrate, pure monoammonium phosphate and nitrogen-phosphorus-containing fertilizer from raw phosphate. Accepted on 16th December 1955.

Comprising of dissolving raw phosphate in nitric acid, dividing the solution into parts A and B cooling part A to crystallise out calcium nitrate tetrahydrate, in next step the remaining solution is neutralised with ammonia gas to give monoammonium phosphate and other precipitates, and in next step solution B is converted to nitrogen-phosphorous fertilizer by neutralization, and evaporation and addition of precipitates from previous step.

52177. J. Deckers. Impervious packing for bandages and suchlike. Accepted on 21st December 1955.

The packing comprises a rectangular cover folded in the middle and means forming at least one pocket, the pocket being attached to the cover by one of the edges of the pocket along the fold of the cover and the edges of the pocket being sealed to furnish a notebook type of packing.

52239. Dunlop Rubber Company Limited. Printing means. (8th July 1953). Accepted on 17th December 1955.

Comprising a printing layer of a pigmented plastic composition having shaped pieces of material embedded in it which are insoluble in a solvent for plastic composition.

52246. Z. D. Harza, R. D. Harza and A. C. Hoffman. Improvements in a gate seal for dams and the like. Accepted on 20th December 1955.
Comprising U-shaped member secured to the sides and bottom of a gate with the open end of the member exposed at the edge of the gate with means for applying pressure within the U-shaped member.
52357. Societe Des Usines Chimiques Rhone-Poulenc. New antibiotic and process for its preparation. (7th September 1953). Accepted on 19th December 1955.
Cultivating aerobically a strain of streptomyces 3486 in a nutrient medium.
52429. Houilleres De Bassin De Lorraine. Method of producing metallurgical coke. Accepted on 17th December 1955.
Small coal is submitted to dedusting operation and then carbonized.
52458. Automatic Telephone & Electric Company Limited. Improvements in telephone systems. (7th August 1953). Accepted on 16th December 1955.
One of a plurality of registers is arranged to be connected up to receive dialled digits representative of the destination.
52466. Ciba Limited. Manufacture of nor-steroids. Accepted on 19th December 1955.
An aculating agent is caused to act on a 16:17 α -oxide-20-keto-pregnane compound in the presence of an acid catalyst.
52658. Dunlop Rubber Company Limited. Upholstery covering material. Accepted on 21st December 1955.
Sheet of plastic resinous material has interconnected cells forming air passages through the sheet.
52681. Imperial Chemical Industries Limited. New azo dye-stuffs. (9th September 1953). Accepted on 17th December 1955.
Diazolising an aminophenyl benzthiazole derivative and coupling with a coupling component which is itself capable of forming complex metal compound.
52891. Champalal Gupta. Methods of producing resinous antacid compositions for human therapy. Accepted on 15th December 1955.
The composition comprises a condensation product of phenol formaldehyde and an alkylene polyamine with a pharmaceutical carrier.
52950. Ciba Limited. Process for the manufacture of steroids. Accepted on 21st December 1955.
Treating 13-unsubstituted tertiary-17- α hydroxy-D-homo-12:18 bisnor-steroid with an agent capable of eliminating water.
52972. Svenska Rotor Maskiner Aktiebolag. Rotary compressors or expanders. Accepted on 21st December 1955.
A single plate supports rotors having co-operating lands and grooves and the casing provided with an inlet and outlet.
52973. Svenska Rotor Maskiner Aktiebolag. Rotary compressors or expanders. Accepted on 21st December 1955.
Male and female rotors are made of mutually different material.
53030. Scientific Oil Compounding Company, Inc. Fungicidal and insecticidal compounds and compositions formed of complex double salts. Accepted on 21st December 1955.
Heating complex double salt of resin amine complex and water-insoluble carboxylic acid metal soap.
53248. Unilever Limited. Improvements in or relating to detergent compositions. [Addition to No. 50091]. Accepted on 21st December 1955.
Consists of soap and 0.01 to 5 per cent by weight of a thiuram disulphide and a stabilising compound.
53316. Ed. Geistlich Söhne A. G. Für Chemische Industrie. Process for the production of new anaesthetic compounds. Accepted on 17th December 1955.
Reacting dialkylamine with $R-NH-CO-CH=$
 R_1
 $|$
 $C-R_2$ where R_1 is hydrogen or alkyl and R_2 is alkyl.
53317. Ed. Geistlich Söhne A.G. Für Chemische Industrie. Process for the production of new anaesthetic compounds. Accepted on 17th December 1955.
Reacting piperidine or monoalkylpiperidine
 R^1
 $|$
with a $R-NH-CO-CH=C-R^2$ where R^1 is hydrogen or alkyl and R^2 is alkyl.
53352. Aktiebolaget Pharmacia. Process for producing nitriles. Accepted on 19th December 1955.
Reacting a halogenide (alkyl), CCH_2CH_2-Hal with a cyanide.
53422. Compagnie Parisienne D'Outillage A Air Comprime, Societe Anonyme. Improvements in or relating to apparatus for transporting and distributing concrete or the like. Accepted on 15th December 1955.
The outlet duct of large diameter is connected to a vat by an intermediate bend portion the inner walls of which have a very gentle slope in the direction of the outgoing flow of concrete or the like.
53499. H. S. Sidhu. An improved ink container. Accepted on 19th December 1955.
A flexible ink bottle with coating secondary ink well body at its neck, and a tubular extension member connected to the secondary ink well body member.
53651. Council of Scientific and Industrial Research. Improvements in or relating to synthetic tanning materials. Accepted on 19th December 1955.
Sulphonating salicylic acid with sulphonic acid and condensing the product with formaldehyde.
53663. The English Electric Company Limited. Improvements in and relating to shrouds for connections between electrical conductors. (29th January 1954). Accepted on 21st December 1955.
Closed hollow structure including at least one insulating panel which may readily be pierced for conductor to pass into the structure and other separable elements arranged so that they can be separated or assembled together without disconnecting any conductor passing through the panel.
53671. Ciba Limited. New anthraquinone vat dyestuffs and process for their manufacture. Accepted on 19th December 1955.
In an anthraquinone the substituent present in 1-position converted into and NH_2 -group, the substituent present in 4-position converted into acylamino-group, the substituent present in 2-position condensed with an amine and hetero ring closure effected.
53782. American Chemical Paint Company. Improvements in or relating to the provision of coatings on titanium and its alloys. (12th March 1954). Accepted on 16th December 1955.
Treating with dispersion of 1-20 g/litre of hydrofluoric, hydrofluosilicic or fluoboric acid, an organic lubricant and vehicle resistant to said acids.
53785. W. P. McCormick. Improved screen printing apparatus. Accepted on 16th December 1955.
Comprising rotatable impression, pressure and guide rollers, a conduit for feeding printing ink to the screen, a squeezing device, mechanism for continuously rotating the pressure roller.
53917. K. F. Tromp. Improvements in and relating to methods and means for separating solid granular materials having different specific gravities. (7th April 1954). Accepted on 21st December 1955.
Materials are fed at the front side of the tank, suspension is introduced into the tank, withdrawing the suspension at the rear side, removing the suspended particles.

54001. Montecatini Societa Generale Per L'industria Mineraria E Chimica. Process and apparatus for performing exothermic reactions under high pressure and at elevated temperature. Accepted on 19th December 1955.

Reaction gases are passed serially through catalyst layers and heat exchangers, the heat of reaction evaporating the coolant, the coolant is cooled outside the reaction chamber and returned in a closed cycle to the heat exchangers.

54017. Union Carbide and Carbon Corporation. Improvements in air-depolarized cells. (19th January 1955). Accepted on 17th December 1955.

Wherein the zinc anode is secured to the upper bottom portion of the container made of modified polystyrene, and a plastic top cover having an opening to receive the cathode.

54035. Commissariat A L'Energie Atomique. Improvements in methods for separating and purifying zirconium and hafnium. Accepted on 16th December 1955.

Placing contact with each other ag. and acidic solution of Zn and Hf with acidified or not solvent comprising alkyl phosphate or acetate.

54051. McKee Development Corp. Chemical lignocellulose pulping process and product. Accepted on 21st December 1955.

Cooking with dilute aqueous solution of hydro-tropic salt.

54152. Crompton Parkinson Limited. Improvements relating to electric arc stud welding. Accepted on 19th December 1955.

Comprising a tool having a solenoid coil which is connected in series with welding circuit so as to be energised to retract the stud.

54181. G. Rösch. An apparatus for the permanent waving and curling of hair. Accepted on 21st December 1955.

Comprising a longitudinal member of circular cross-section provided with two diametrically opposite rows of cylindrical spines and a clamping bar.

54224. Makhtsavei Isreal. Continuous process for the electrolysis of aqueous bromide or iodine solutions, and electrolytic cell therefor. Accepted on 17th December 1955.

A stream of fresh electrolyte is fed into the electro chemically neutral zone.

54282. T. W. Ellis and R. H. Bone. Improvements in or relating to lampshades. Accepted on 17th December 1955.

Comprising of plates arranged to extend lengthwise of the axis of lamp secured by U shaped cross plates spaced apart which receive the lamp between their limbs whose width is sufficient to engage the plates within their overall contour.

54316. The Goodyear Tire & Rubber Company. Improvements in apparatus for shortening take-off run of airplanes. Accepted on 21st December 1955.

Automatic sensing means responsive to dynamic air pressure actuate the lift controlling means when airplane reaches predetermined speed.

54505. Ciba Limited. Process for introducing oxygen into steroids. Accepted on 21st December 1955.

A steroid containing a methyl group in 13-position is subjected to the oxidising action of an enzyme derived from an animal organism.

54508. N. V. De Bataafsche Petroleum Maatschappij. Process and apparatus for the catalytic cracking of hydrocarbon oils. Accepted on 15th December 1955.

The catalyst issuing from the reactor is passed to a stripper provided in the regenerator the stripper being near its bottom in direct communication with the regenerator.

54572. The Singer Manufacturing Company. Ornamental stitching attachment for sewing machines. Accepted on 21st December 1955.

Pattern cam is moved bodily into and out of operative engagement with both the work shifting member and the pattern cam turning mechanism.

54610. Imperial Chemical Industries Limited. Process for the preservation of natural and synthetic rubbers and rubber articles and lattices. (4th June 1954). Accepted on 21st December 1955.

Incorporating in the rubber an antioxidant of the general formula 2:3-tertiary alkyl-4-alkoxy phenol.

54724. "M.K." Electric Limited, C. L. Arnold, R. W. Dowsett and A. V. Sharman. Improvements relating to electric switches. (15th June 1954). Accepted on 21st December 1955.

Spring blade extends between contact blade and cam and a stud like element fixed relative to the contact blade is freely movable through an aperture formed in the spring blade.

54884. D. R. Dowling. Improvements in centrifugal pumps. Accepted on 16th December 1955.

Wherein complete pump outlet is formed partly in body and remainder in cover plate superimposed thereupon.

Opposition Proceedings

An opposition has been entered by Kores (India) Ltd. to the grant of a patent on application No. 53418 made by The Bharat Carbon & Ribbon Mfg. Co. Ltd.

(2)

An opposition has been entered by Ciba Limited to the grant of a patent on application No. 53809 made by S. B. Penick & Company.

Printed Specifications Published

A limited number of printed copies of the undernoted specifications are available for sale from the Manager of Publications, Civil Lines, Delhi, or on cash payment at the counter of the Government of India Central Book Depot, 8, Hastings Street, Calcutta, at two rupees per copy:—

Amendment Proceedings

The amendment proposed by Heyden Chemical Corporation in respect of Patent Application No. 50502 as advertised in the Gazette of India, Part III, Section 2, dated the 10th September 1955 has been allowed.

Registration of Assignments, Licences Etc.

Assignments, licences or other transactions affecting the interests of the original patentees have been registered in the following cases. The number of each case is followed by the names of the parties claiming interest:—

33835. The Indian Oxygen and Acetylene Company Limited.

Renewal Fees Paid
